

Enjoy a day full of discoveries

In the early hours of the morning (between 7.00 and 10.00 am) you can watch **FloraHolland Aalsmeer**: the world's market place for flowers and plants.

From 10.00 am on, you visit the **historical garden**: Aalsmeer living history on 13.000 m²!

In one of the greenhouses you will find a collection of old tools and you will be able to sit in an auction room with an original clock of the 1930's.

What about a boat trip to finish this pleasant day? At 1.30 an open boat from **Westeinder Rondvaart** leaves for a cruise along the many fields where shrubs are growing. A whole new world lies in front of you! Both the **historical garden** and the boat departures are situated in the centre of Aalsmeer, which makes it easy for you to have a cup of coffee or a lunch. It is also possible to visit one of the locations separately.

Booking and information:

Available on Tuesdays, Wednesdays and Fridays. (Sale from 23 april till 27 september)
